

ICUCEC Annual General Meeting Notice

Inter-Church Uranium Committee Educational Co-operative (ICUCEC) is having its AGM by Zoom, Saturday, 28 May 2022, 10 am. That makes it easier for you to attend. It is a shame that we don't get to visit one another and snack on the great food people bring.

If you have kept up with the Small Modular Reactor hype, you will be aware that ICUCEC has its work cut out. We continue to take the Canadian Nuclear Safety Commission (CNSC) to task, as well as all government agencies. We are also trying to help our Northern neighbours stop even more exploration—of all kinds, not only uranium. They are under constant siege.

It is really business as usual.

We would love to have you in attendance to help us forge our way forward.

Also, we are always looking for new board members. We can have as many as 25. Our numbers have dwindled in the last year so we are looking for replacements—and more. We have been having Zoom meetings for the past couple of years. That means we can have people from all over the province at our AGM and on the board. To attend the meeting, please contact us via email or phone.
